

series

a course of six treatments to target the areas that concern you the most. my goal is to achieve the results you desire at an unbelievable value.

clinical exfoliation: 400.

a course of treatments that promote cell renewal and turnover while increasing skin density, firmness, and refine surface texture. a pharmaceutical grade exfoliant insures maximum resurfacing while rebuilding the skins cellular matrix. Dermalogica's Skin Renewal Booster or Daily Resurfacer are strongly advised to be used daily between treatments.

pigmentation: 400.

advanced technology treatments to regulate melanin production on a cellular level and restore skin health. Galvanic current delivers a concentrated serum deep into the skin to balance areas of uneven pigmentation that dramatically diminishes discoloration caused by sun exposure, premature aging and hormonal imbalances. Dermalogica's Skin Brightening System with Daily Resurfacer maximizes the results of this of course.

medibac: 400.

medicated clearing treatments to actively manage current blemishes while helping to prevent future breakout activity. Specifically designed to purify the skin through deep cleansing, chemical exfoliation of surface debris, decreasing sebum production while fighting bacteria providing anti-inflammatory benefits to sooth irritated skin and promote healing. Dermalogica's medibac system is recommended for daily use during the course.

age repair: 400.

The latest in vitamin repair and pharmaceutical grade exfoliation to treat environmentally damaged skin to improve skin elasticity and stimulate cell renewal to visibly reduce signs of premature aging while boosting the immune functions of the skin to promote cellular repair and regeneration. Dermalogica's PowerRich is recommended for maximum results.
